

EUROPEAN CONGRESS
OF RHEUMATOLOGY 2019
Madrid 12–15 June

ABSTRACT EMBARGO

VERSION SEPTEMBER 2018

Accepted abstracts are published in a special (digital only) supplement to the “Annals of Rheumatic Diseases – The EULAR Journal” at the congress (the “Abstract Book”). In addition, they are made available on the EULAR website and the official EULAR Itinerary Planner and the EULAR Mobile App approximately one month prior to the congress for information and planning purposes of delegates. Information contained in abstracts may not be released until the abstract appears online.

Academic institutions, private organisations and companies, whose value may be influenced by information contained in an abstract, may issue a press release to coincide with the availability of an abstract on the EULAR Website. Any earlier reporting will be considered as violation of the embargo.

However, only the information contained in these abstracts can be reported on in the media. Any information that goes beyond that contained in the abstract (e. g. discussion of the abstract in the light of any additional information that will be available at the time of the meeting) is embargoed until 00:01 CET on the opening day of the congress. Embargoed materials include – but are not limited to – original journal articles, posters, graphics, slides and other written, audio and video materials associated with the scientific information being presented at the congress.

The official publication of the abstract is included in the Annals of the Rheumatic Diseases, on the EULAR website, the EULAR Itinerary Planner and the EULAR Mobile App. Direct or indirect individual publication of the abstracts will not be approved and may constitute a violation of the copyright and/or the EULAR embargo.

Violation of the embargo may result in the abstract being withdrawn from the congress and/or other measures deemed appropriate.

It is not considered a violation of this policy if an abstract or information thereof is presented elsewhere between 01 June 2018 and 31 January 2019. Presentation of an abstract elsewhere between 1 February 2019 and 31 March 2019 is possible, if acceptance is still pending at the time of the regular abstract submission deadline (usually end of January).
